A CELEBRATION OF INNOVATION

is a consolidated enterprise, boasting expertise and professionalism. Tecnosteel is synonymous with quality products but also with providing support and advice to its customers with choices that will contribute to their success.

places importance on the design and production aspects that impact on the environment and proposes efficient equipment produced with green technologies.

The product of a Company starts from its experience and its ability to understand customer needs and how these requirements should be developed. Tecnosteel designs its products together with its customers, focussing on their needs and goals.

offers solutions able to meet the needs of each and every one of its customers and that simplify the work of users. The aesthetic attention and compositional versatility means they can be easily integrated within any environment.

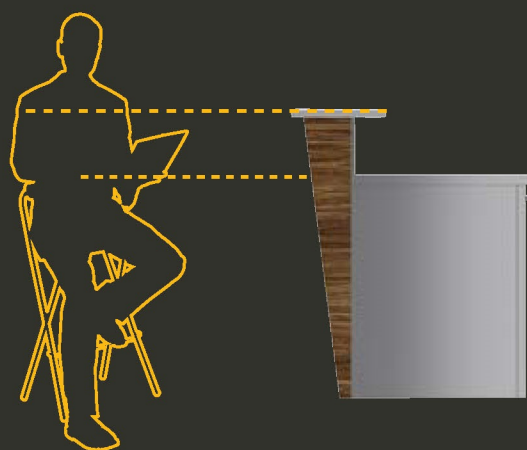

BAR AND BEER*

ITALIAN DESIGN INTERNATIONAL CHARACTER

Bar line is versatile and responsive to customised furnishing requirements. Today, it is becoming increasingly essential that the quality of equipment is compatible with the furnishing context with a particular aesthetic impact. Tecnosteel's Bar modules fulfil every requirement of avant-garde premises in which a particular character of operational and indispensable efficiency is essential. A good coffee, a great glass of wine or quality beers will be enhanced if they are served with warmth and at the correct temperature and within the right context. Tecnosteel boasts the experience and skills to support customers from design consultancy to installation in Italy and abroad.

The Bar line units are made of stainless steel and completed by modules and accessories that are essential for the organisation of your work. Can be installed in any context, accommodating both the aesthetic aspects of your project and your daily operational requirements.

BAR*

ERGONOMICS AND FLEXIBILITY AT YOUR SERVICE

translates your preferences and forms into practice with its tailor-made solutions. Work tops, refrigerated and neutral units and accessories can all be tailored to your needs in terms of space and organisation of work. Solutions dedicated to you.

BAR*

BY THE OPERATOR: "THE EQUIPMENT"

bar equipment will be the ideal partner for your business. Long-lasting, built entirely in steel, with features designed to facilitate your daily work. Cupboard or open bases, sets of drawers and waste bins, customised work tops, cocktail stations, coffee modules, bottle holders and everything that you need on a daily basis.

REFRIGERATED TABLES AND UNDERCOUNTER
THE IDEAL TEMPERATURE

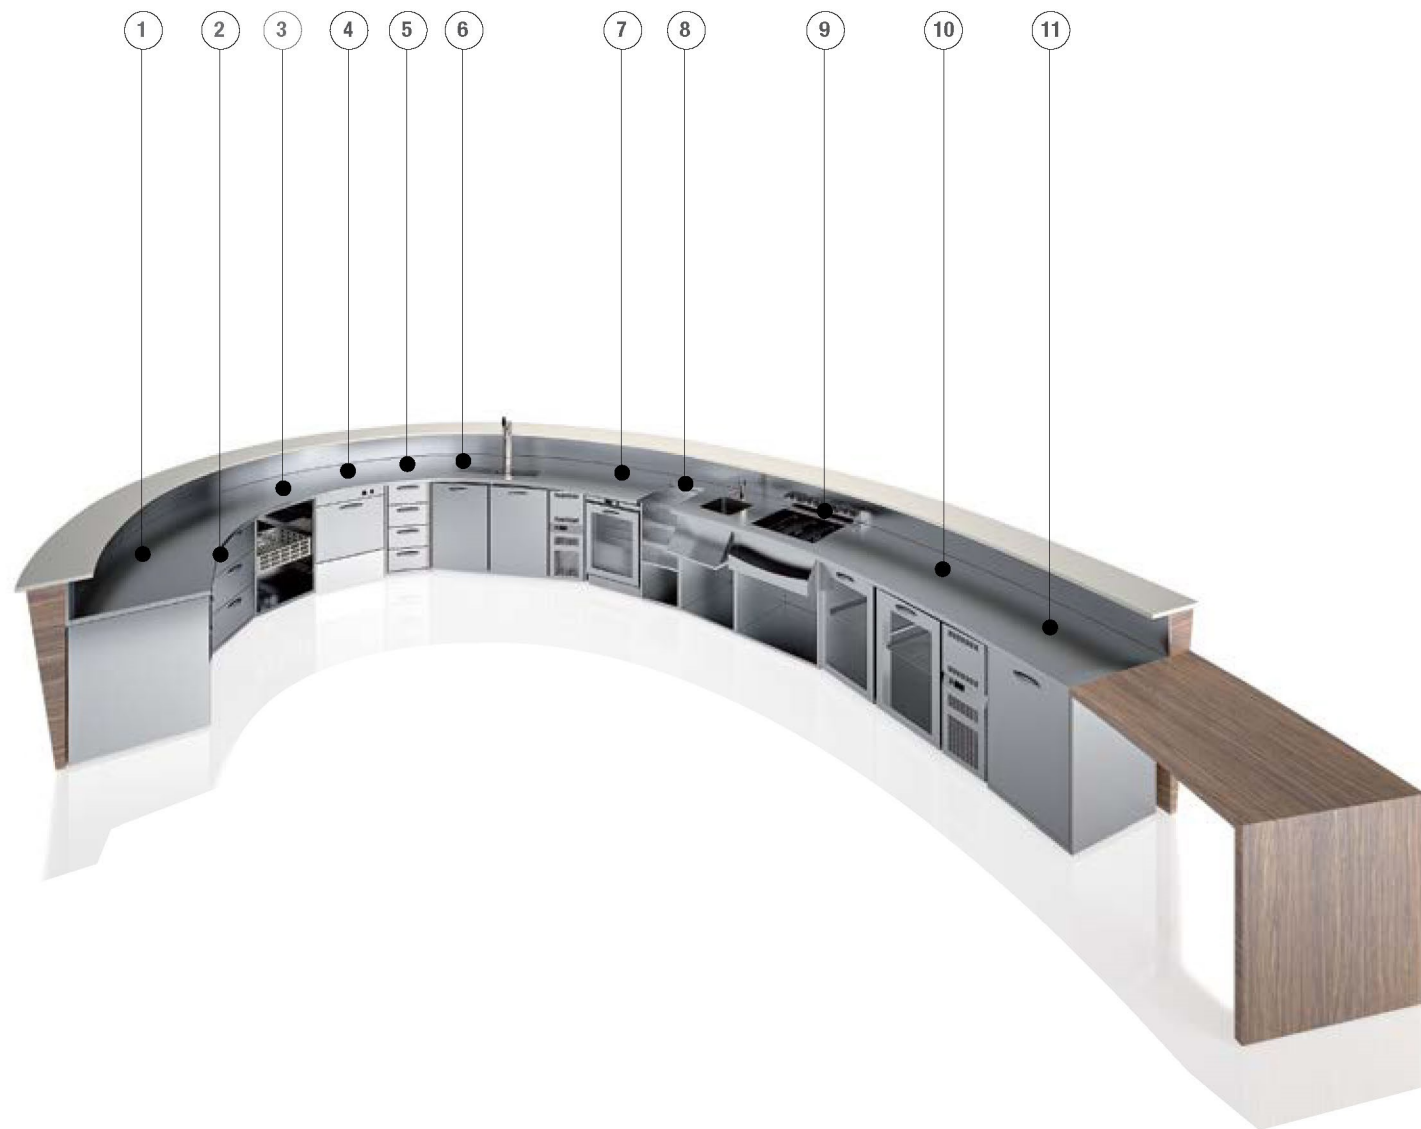

Refrigerated equipment essential for every bartender. A beverage served at the right temperature, a perfectly pulled beer, these must all ensure the maximum comfort of customers enjoying the bar in a relaxing and exclusive experience in which service plays a vital role. Refrigerated units and freezers with doors, also glass, or drawers for the storage of bottles, cans and casks of various sizes, insulated wells for ice to be integrated within the work top and much more, guarantee quality and comfort and complete bar service.

BAR*

WE GIVE SHAPE TO YOUR IDEAS

offers wide design freedom thanks to the flexibility of the units that are included according to functional requirements within linear or curved structures. Work tops and fronts can be customised with any material. Maximum design expressiveness in Interior Design, the perfect union of Art and Technology enhances the particularity and quality of the result.

The Bar line units consist of stainless steel structures complemented by accessories and equipment for the organisation of your work.

STEELBEER*

THERE IS NO BEER WITHOUT "DRAUGHT"

The beer counter and cooler for kegs offered by Tecnosteel are made of stainless steel and the back panel foam evaporator ensures duration of the product. The bar counter is suitable to contain bottles and kegs of various sizes. The top unit, with containment edge, can accommodate drip trays with glass rinsers, sinks and refrigerated wells. Can be composed with modules with doors or refrigerated drawers.
