

EPOCA E

Epoca's design is based on an extremely dynamic, informal style.

*The electronic **Epoca E** version allows you to achieve excellence in the brewing of quality espresso coffee.*

Available in versions with 1 and 2 groups.

The filter holder is fitted with a new ergonomic handle, designed to ensure smooth wrist movement and maximum user comfort.

The EPOCA range of features is rounded off by side-mounted shockproof bumpers, offering ample protection even at the busiest times of day.

Red and coal grey are enhanced by a metallic effect that gives Epoca a shiny, modern feel.

To make cleaning and maintenance easier, Rancilio has equipped all its products with a revolutionary work surface: the support grids come in a scratchproof polymer and can be removed to allow ease of washing in a dishwasher. Thanks to its efficient liquid collection system, Grid System keeps the work surface clean and protects cups against unsightly marks left by drops of coffee.
