Cornice Vino

Progetto realizzato in collaborazione con EXPO' S.r.l. - Torino
Designed in cooperation with EXPO' S.r.l. - Torino

L'essenzialità della linea "Cornice" e la linearità dell'esposizione orizzontale delle bottiglie si concretizzano in un oggetto dal design inconfondibile destinato a rendere unico ogni ambiente che lo ospita.

The essential quality of the "Cornice" collection and the linear, horizontal display of the bottles come together in an item with an unmistakable design which is bound to make any environment it is placed in truly unique.

CORNICE VINO 180

La linea "Cornice vino" è dotata di un innovativo sistema di refrigerazione basato sul posizionamento della serpentina di raffreddamento al centro della vetrina.

Questo sistema, oltre a garantire le migliori condizioni di conservazione, ha reso possibile l'utilizzo di vetri su tutti i lati e di conseguenza la massima visibilità delle bottiglie esposte.

The "Cornice vino" (or "Wine frame") has an innovative refrigeration system which relies on a cooling coil positioned in the middle of the showcase.

This system, in addition to ensuring the best conditions for storage, has made it possible to use glass panels on all the sides and hence, provides maximum visibility of the bottles on display.
