GEM120 20 Quart Mixer

GEM120
20 Quart Mixer

FEATURE LIST	
Model:	GEM120
Description:	20 Quart Mixer
Voltage:	120/60/1, 220/50/1, 220/60/1
Rated Power:	1.5 hp
Bowl Capacity:	20 qt
Speed:	108/195/355 R/MIN
Weight:	227 lb

These all-purpose mixers use a planetary mixing action that consistently blends, mixes and aerates all ingredients with satisfactory results. The heat treated carbon steel gears deliver energy at three pre-selected fixed speeds. Each mixer comes standard with a stainless steel bowl, flat beater, spiral dough

hook, and wire whip. The stainless steel wire front bowl guard opens easily for adding ingredients. The bowl guard magnetic lock prevents the mixer from running if guard is opened or the bowl is lowered. The switches are moisture resistant. All units come with an overload switch which protects the motor.

Specifications subject to change without notice.
